DICKMAN DEFEATED BY SCHANCK

For Supreme Judge—The Other State Officers Renominated—A Strong Set of Resolutions Adopted—No Step Backward by the Buckeye Republicans—Speeches Indicate a Preference for McKinley for President and Foraker for United States Senator.

COLUMBUS, O., June 6.—The Republican state convention reconvened at 10 o'clock. Prayer was offered by Rev. William Macatee. When ex-Secretary Charles Foster was introduced as permanent chairman he was greeted with an unusual demonstration. He recounted the unparalleled prosperity of the country on the day of the national election of 1892. The great law that is known as the McKinley act was passed by a very small majority. No trouble then about the lack of a quorum. With Thomas B. Reed as speaker Congress did business. From the very day of Cleveland's election business confidence began to be impaired. A feeling of unrest among intelligent people began to manifest itself. The question, will the Democrats undertake to carry out their pledges, became a burning one. Even before Cleveland was inaugurated public confidence in our future was weakened. As the fact that our financial policy was in the hands of inexperienced, and possibly incompetent, hands gradually dawned upon our people, and they became restive and uncertain as to the future. When finally it was made manifest that tariff reform was really the purpose of the party in power—thus attacking every industry and the wages of every laboring man, confidence in our future was destroyed and the crash came. • • • The trust can get an audience with the committee, and framers of this law can secure such legislation as they desire, while the farmer and manufacturer and laborer are denied a hearing.

THE PLATFORM.

Auditor of State Poe read the report on resolutions which was adopted with frequent applause, as follows:

The Republicans of Ohio, in delegate state convention assembled, reaffirm the platform principles adopted by the Republican national convention of 1892.

Second—The people of Ohio delight to honor their able, distinguished and patriotic public servant, the Hon. William McKinley. They endorse his administration of state affairs during his first term by re-electing him by the largest majority ever given to any candidate for governor in time of peace and we, accredited representatives of the 433,000 Republicans at that election, do most heartily endorse his present clean, honorable, able and efficient administration and we assure him of our highest confidence and esteem.

Third—We commend the seventy-first general assembly of the state.

Fourth—We commend the course of our Republican representatives in Congress and of our illustrious senator, John Sherman.

Fifth—We recognize the tariff act of 1890, known as the McKinley act, as the ablest expression of the patriotic principle of protection yet enacted, and condemn and denounce any attempt to repeal or amend it, which does not have for its object better protection to American labor and American interests than it secured by it.

WILSON BILL DENOUNCED.

Sixth—We denounce the unjust and inequitable tariff measure known as the Wilson bill and the senate substitute therefor, as unpatriotic, favorable to trusts and sectional in their provisions, and as subversive of the prosperity and happiness of the people of the United States. The change from specific to ad valorem duties would promote undervaluations, fraudulent invoices, and increase importations from a loss of revenue to the government of many millions, and result in a constantly increasing annual deficiency which it is proposed to meet by the resort to such war measures as income taxes, increased internal duties.

Seventh—We denounce the attempt of Congress to destroy the principle reciprocity.

Eighth—We endorse the settlement of the national grange, i. e., "that all tariff laws shall protect the product of the farm as well as the product of the factory."

Ninth—We demand such protection for sheep husbandry as will secure fair prices for wool.

Tenth—We denounce the treatment of American farmers and working men by the Democratic committee of the senate.

Eleventh—We denounce the present Democratic administration's Hawaiian policy which has been a national disgrace.

Twelfth—We denounce the administration of the present pension bureau as deliberate betrayal of the welfare of the union soldiers and sailors.

Thirteenth—We demand the enactment of such legislation as will prevent the immigration of criminal classes of laborers under contract, of paupers and anarchists.

Fourteenth—We favor bimetalism. Silver as well as gold is one of the great products of the United States. Its coinage and as a circulating medium should be steadily maintained and constantly encouraged by the national government, and we advocate such a policy as will, by discriminating legislation or otherwise, most speedily restore silver to its rightful place as a money metal.

Fifteenth—We denounce the avowed purpose of the Democratic leaders to restore the era of "wild cat" and "red dog" money by repealing the prohibitory 10 per cent tax on state issues. All money of whatever kind should be under national and not state control.

Sixteenth—Commends the Nicaraguan canal.

THE NOMINATIONS.

Samuel M. Taylor was renominated for secretary of state with no opposition. John A. Schanck, of Dayton, was nominated for judge on the third ballot over F. J. Dickman, candidate for re-nomination, and John A. Price, C. E. Groves was nominated for board of public works and O. T. Carson for school commissioner.

Influences in speeches are to the effect that Foraker is the favorite for United States senator and McKinley for President.

THE STANFORD ESTATE.

And the University Would be Wiped Out and Mrs. Stanford Left Penniless by the Alleged Government Claim.

SAN FRANCISCO, June 6.—The claim for \$15,000,000 filed against the Stanford estate by Attorney General Olney as a preliminary step to force the government's claim against the original holders of the Central Pacific grant, has caused the greatest excitement. It is now learned that the government's claim was presented May 20, but that an attempt was made to keep the proceeding secret in order that the financial operations of the estate need not be embarrassed. The late Senator Stanford's estate was recently appraised at \$17,600,000.

Since the appraisal heavy obligations have been met and it is stated now that the enforcement of the government claim would practically wipe out the estate, not only leaving the widow penniless, but cutting off all beneficiaries under the late senator's will, including the endowment of \$2,500,000 to the Stanford University. It is even said that the estate, after the liquidation of its acknowledged debts, may not equal the amount of the claim of the government. In this event Senator Stanford's deed of trust under which Stanford University was founded would not stand in case the decision of the courts should be in favor of the government, and university would be necessarily sacrificed to satisfy the judgment. Mrs. Stanford, in an interview, has stated that the government's claim will be resisted to the fullest extent of her ability. She regards the proceedings in the nature of a test case and was not surprised at the filing of the claim. Further than these statements she would not talk.

To-day is the last day under the law which Mrs. Stanford has to accept or reject the government's claim. It is believed she will simply ignore the claim which in law amounts to rejection. It will then be in order for the government to institute suit either in the United States courts or the superior court in San Francisco. Attorney General Olney's claim was filed in the probate court in San Francisco before Judge Coffey, where the Stanford estate is now undergoing settlement.

STILL INCREASING.

The Republican Plurality in Oregon Will be Unprecedented—Democratic Counties Drop—A Clean Sweep.

PORTLAND, OREGON, June 6.—Incomplete returns from 18 counties out of 32 give Lord, (Rep.) for governor, 24,073; Galloway, (Dem.) 10,511; Pierce, (Pop.) 15,560. Ellis and Hermann returned to Congress by increased majorities. Lord for governor leads the Republican ticket. The remainder of the ticket, including Irwin for superintendent of schools, whose election was considered doubtful for a while, is elected by big pluralities. The latest figures on the legislature are as follows: Senate, Republicans 18, Democrats 7, Populists 3, doubtful 23. House, Republicans 47, Populists 7, Democrats 1, doubtful 5. Returns show that many Democrats voted the Republican ticket. Strong Democratic counties for the first time in the history of the state have given Republican pluralities.

THE OREGON FLOODS.

The Worst Over—Portland Suffers Severely—Thirty Squares Under Water.

PORTLAND, ORE., June 6.—News has been received from the upper Columbia region which indicates that the worst of the flood is over. Snake river is falling and the Columbia is stationary. In this city the water reached the thirty-three foot mark at noon. At the Dalles the river is 58.3 feet above low water.

The only houses doing business are the groceries and markets. The water is nearly three feet deep on the floor of the postoffice. A swift current is running through the town, and it is feared that many buildings may be washed from their foundations. The hotels are in the water up to the second stories. Thirty blocks are under water, and the rise of a few more feet will inundate the entire portion of the town under the bluff. Mammoth Island, the burial place of the Indians for many years, is almost entirely under water, and hundreds of skeletons are being washed away.

The Flood at Pueblo.

PUEBLO, COLO., June 6.—This city is again inundated. The flood reached here at 3:30 a. m. The Arkansas river is not as high by ten inches as it was Thursday, but Fountain creek is much higher. Water on the north side is five inches lower than the highest point reached last week; on the south side it is much lower. The damage is not very great except to railroads, which are badly washed. No lives have been lost so far as known. The water is now falling rapidly.

Fatal Explosion.

KANSAS CITY, Mo., June 6.—A gasoline stove exploded in Adam Long's house, No. 1526 Central street, last night, and two servants, Mary Glynn and Nora Kelvel, were frightfully burned. Mary Glynn died shortly afterwards, but the other girl will probably recover.

Gone to Gray Gables.

WASHINGTON, D. C., June 6.—Mrs. Cleveland, accompanied by her two children, a nurse and a maid, left Washington at 3:40 o'clock in a special car on the Pennsylvania road, for Gray Gables. At New York the party will take a boat for Fall River.

For Want of Fuel.

CLEVELAND, June 6.—The big rolling mills at Newburg were compelled to close down to-day for want of fuel. It is estimated that between three and four thousand men are idle as a result of the shut down.

THERE is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and by prescribing local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. AN INNOCENT RESOLUTION.

Which Was Taken Advantage of by the Chinese Companies.

SAN FRANCISCO, CALA., June 6.—The craft and cunning of the Chinese in this city has once more circumvented the federal authorities and the exclusion laws, and a result of the privileges extended to them by Congress in connection with the midwinter fair, the celestial population in the country has been swelled by additional of a ship load of laborers who have had six months in which to scatter and conceal themselves.

When the resolution introduced by Senator White extending the same privileges to exhibitors at the midwinter fair as had been previously granted for the Columbian exposition was adopted, the parties in this city who have been engaged in evading the exclusion laws were quick to see the opportunity to bring in another batch of Chinese under cover of bringing them to the fair, as had been done at Chicago, and as a result 237 laborers were landed despite of the opposition of Collector Wise.

Special Agent Phoenix, acting under instructions from the treasury department, visited the Chinese village last week and discovered that out of 237 Chinese originally landed all but twenty-seven had levanted and there is little doubt each one of the 220 laborers who have thus slipped into the country is now safely registered, with years of residence in the United States backed up by a score of witnesses. The innocent-looking resolution put something like \$350,000 into the pockets of the Chinese company that manipulated the scheme and organized a company for the purpose of placing a Chinese exhibit at the fair.

MONEY'S SENTENCE.

The Court Martial Practically Acquits the Lieutenant.

ST. PAUL, MINN., June 6.—The verdict in the Maney case was learned positively by the Dispatch to-day. Lieutenant Maney was cleared on the first specification, but found guilty of the charge of conduct unbecoming an officer, and the sentence was suspension for one year with forfeiture of half pay during the time of suspension. A recommendation to executive clemency which accompanied the sentence, it is believed, may serve to clear him from the severity of the sentence.

Cannot Accept.

MASSILLON, O., June 6.—A letter has been received here from President John McBride, of the mine workers, in which he says that his relations to the miners forbid his entrance into politics. "These considerations," he says, "will not allow me to even consider the possibility of being a candidate for Congress, and I can say publicly and privately that I will not accept a congressional nomination this fall."

A New Constitution.

BRUSSELS, June 6.—The chamber of deputies to-day, after three months debate, adopted by a vote of 70 to 44 the bill to provide for a revision of the constitution.

THE STORY OF THE WORK.

A lover of pictures, a man of means, making a tour of the art galleries of the world, realized that the luxury of seeing all these beauties was limited to the very wealthy, and to them only by wearisome and expensive traveling and time. "Why not in the present age of perfect photographic reproduction, why not reproduce the most beautiful, the most popular, the most noted of these art treasures?" was the question he asked himself. Why not indeed; no sooner thought of than he applied his means and prestige to secure large and perfect photographs of the choice pictures.

The result is "MASTERPIECES FROM THE ART GALLERIES OF THE WORLD." The original idea was to issue the book in parts just as is now being done; but to charge \$2 50 a part or \$100 in all. Now, a syndicate of newspaper publishers has purchased the photographs and plates, and is issuing them to "Boom Circulation."

Now, everyone may have this magnificent work, which was originally intended for the rich man's palace.

Such is the force of nineteenth century invention, machinery, enterprise, and DESIRE FOR GREAT CIRCULATION.

WHAT THE WORK IS.

The pictures are the choice works of the greatest artists, many of the originals having been sold for over \$100,000 a piece. Fifteen of these grand pictures will be given in each part, besides a sketch of the artist and description of the picture. When complete this will be the best and finest Art Book ever published. Subscribers may secure the pictures without the coupons by paying 25 cents for each part.
